Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional indorsement of each of its several ingredients—worth more than any number of ordinary non-professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It *will often prevent* them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent *free* on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

E. S. Leadbeater & Sons, Special Agents.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

Serious Conditions in New York.

There was little change yesterday in the strike situation in the street cleaning department in New York, the bulk of whose drivers quit work several days ago, because their demands for an eight-hour day and the modification of the rules concerning fines for infractions were not granted. The day, however, was enlightened by a series of incidents, which made the situation more interesting than ever.

In the first place, a handful of men occupying menial places in the classified service were able to continue to hold up practically all the garbage removal from the most congested district in point of population in the world. And yet there was not the first sign of disorder in the Ghetto, or in the other streets of the East Side, most directly concerned in the huge surplus of filth and garbage which fills the public highways there, and threatens, if the strike is prolonged until real hot weather sets in, to breed a plague of diseases, especially among children.

In these thoroughfares the conditions in respect to garbage are simply indescribable. Huge masses of decayed fruit, vegetables, meat and other household refuse themselves everywhere, while the air is literally poisoned with the odor. The filth in many cases is scattered about by the horses, play of children, and the tramp of many feet. The rain of Saturday night and the coolness of the air yesterday helped perceptibly to keep down the danger of contagion, but it was asserted that if the temperature rises to any considerable degree dangerous putrefaction is bound to set in, and no one can tell what the result will be if the refuse is not entirely removed or cut down to a marked degree within the next forty-eight hours. Dr. Darlington and the other health officials would not admit that there was any immediate danger of an epidemic. They said that they had the situation well in hand, considering the handicaps under which they were working, and they hoped for marked improvements in conditions today. Men are scarce at $2.50 per day.

Another Orchard.

In the arrest of Paul Kelly in San Francisco last night the police believe they have a man with a record like that of Harry Orchard. Kelley is wanted in New York for the murder of six persons during the strike on the elevated railroad. At that time he was in charge of a car, which he is said to have wrecked, killing six persons who were passengers.

According to the detectives who made the arrest, Kelly admits his train was deliberately wrecked, and he was paid for the crime by the strike leaders. Kelly broke down under the sweating process, and declared he would tell all when he arrived in New York, and take his punishment.

Kelly left New York immediately after the wreck, and has been working in San Francisco as a switchman on the Southern Pacific Railroad since.

The wreck in which six passengers were killed, was, he said, planned by strike leaders, who were to pay him a certain sum for the crime. In order to fulfill his contract the detectives say he declared he had to place his own life in jeopardy.

Badly Mixed Up.

Abraham Brown, of Winterton, N. Y., had a very remarkable experience; He says: 'Doctors got badly mixed up over me; one said heart disease; two said it was kidney; the fourth, blood poison, and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters which are restoring me to perfect health. One bottle did me more good than all the five doctors prescribed." Guaranted to cure blood poison, weakness and all stomach, liver and an, weakness and all stomach, liver and kidney complaints, by E. S. Leadbeater & Sons, druggist, 50c.

Widow Killed by Jealous Suitor.

Dragged from her bed by a jealous suitor, Mrs. Mary Molesworth, a widow, was shot and killed late Saturday night at her home in Chicago. Cecil Gibson, the murderer, then turned his revolver on Thomas Jones, a boarder in the house, and wounded him, probably fatally. The killing was done in the presence of the woman's nine-year-old son, who pleaded with Gibson to spare her life. Mrs. Molesworth, who was 34 years old, was shot twice in the head. She conducted a boarding-house and Gibson took his meals there, although he slept elsewhere. He was insanely jealous of the attention she paid to Jones and frequently threatened to kill her. Gibson was arrested. From all that the police could learn Gibson had been courting Mrs. Molesworth for several years, seeking her consent to marriage. He is said to have been encouraged at the beginning, but later Jones seemed to supplant him.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Guaranteed under the food and drugs act June 30th, 1906. Serial number 1098.

To contradict certain talk and to put the consuming public in possession of the truth, we say in plain words that no one in this town can sell as good coffee as Arbuckles' Ariosa for as little money.

Misbranded and make-believe Mocha and Java, or coffee sold loose out of a bag or a bin, is not as good value for the money, nor can it be sold at as narrow profit, nor reach the consumer under as favorable conditions.

When you buy Arbuckles' Ariosa Coffee you get more than 16 net ozs. of straight, wholesome Brazilian coffee from the largest coffee firm in the world, with that firm's direct assurance that they are giving you the best coffee in the world for the money.

Death of Francis Murphy.

Francis Murphy, the gospel temperance evangelist, died in Los Angeles, Cal., yesterday. The deceased was born in Wexford, Ireland, on April 24, 1836. He came to this country in 1856. After serving in the federal army he began the work of temperance reform, organizing reform clubs in Maine. He made his first public address in Portland in 1870. In 1876 he spoke for the first time in Pittsburg, afterward his home. There he persuaded 45,000 persons to sign the pledge. The work spread until 10,000,000 persons throughout the country had taken the pledge. He worked in England later, served as chaplain in the Spanish-American war, and had lately spent a greater part of his time in evangelistic work.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, JULY 1, 1907.

THE JURY in the Halifax court on Saturday evening, as anticipated, brought in a verdict declaring Judge Loving innocent in the killing of Theodore Estes recently. The ground upon which the verdict was based was that the judge in slaying the unfortunate young man was "upholding the sanctity of his home." While no one is disposed to cast any aspersion upon the twelve men who were called upon to decide this case or in any way to question their wisdom, it may be said that many people have been inclined to believe that Judge Loving was a victim of rashness; that young Estes may not have deserved his fate and that it was possible a terrible mistake had been committed. The jury, however, had everything appertaining to the case presented to them, and the public doubtless will be bringing coals to Newcastle to represent matters to their minds which they have already closely examined. But notwithstanding all this, the fact remains that the civilized world is gradually undergoing a dangerous transition, and that human life is not regarded with sufficient sanctity. During the past few months a number of cases have come before courts in different parts of the country which upon their faces would appear to laymen to be deliberate murders, but when carried before certain tribunals, attempts have been made to minimize them into less importance than ordinary misdemeanors. Dementia Americana, brain storm, temporary insanity and other real or imaginary cerebral disorders have been plead in extenuation of horrid crimes, and the world seems to be gradually drifting into an epoch when violence will again fill the earth as in the days of the antediluvians. In the case of Judge Loving the court excluded an attempt to impeach the statement Miss Loving is said to have made to her father previous to the shooting, it being held that the truth or falsity of the same was immaterial, as the judge killed young Estes while under the impression that his victim had wronged his daughter. According to her evidence on the stand, the judge understood her correctly, but in the proceedings of the case published elsewhere it is stated that no actual assault was committed. If the daughter, in her previous irresponsible condition, imagined she was the victim of indignities which really did not take place, the remorse of years will be her portion, while the father will have added thorns to his pillow during the advanced evening of his life.

THERE IS an old saying that "when Greek meets Greek then comes the tug of war," but when woman meets woman anything is liable to happen as was instanced in Atlanta on Saturday. On that day Joseph M. Terrell transferred the office of governor of Georgia to Hoke Smith. Outwardly all was harmony at the State Capitol, where Hoke Smith was inaugurated, but there was no harmony at the executive mansion where Mrs. Terrell, wife of the retiring governor, and Mrs. Smith, wife of the new executive, came in contact. Mrs. Smith had planned a reception immediately after the inauguration to friends of Mr. Smith, who had come from all over Georgia to witness the inauguration, and she wanted to get into the mansion early in the morning to arrange for the function. Mrs. Smith notified Mrs. Terrell of her wishes, but Mrs. Terrell sent word that the mansion would be turned over to Mrs. Smith at 12 o'clock, and not one minute earlier. Barred from entering until noon, Mrs. Smith issued orders to caterers, and at 11 o'clock a long line of them proceeded to the executive mansion, where they stationed themselves on the sidewalks waiting for opening time. When the clock struck 12 Mrs. Terrell turned over the keys and the caterers filed in and arranged the refreshments for the gubernatorial reception. The feeling between Mrs. Terrell and Mrs. Smith dates back to William J. Bryan's last visit to Atlanta. On that occasion Mrs. Smith was chairman of the women's committee which entertained Bryan, and it is claimed that this committee ignored Mrs. Terrell in making arrangements. Up to that time Mrs. Terrell, as wife of the governor, had always figured on committees to receive distinguished guests.

AS HERETOFORE stated sensational charges have been filed in the War Department at Washington against Lieut. Col. W. F. Tucker, by his wife, daughter of the late Gen. John A. Logan, which involves the United States army in another scandal. The charges allege scandalous conduct by Lieut. Col. Tucker while in the Philippines and on his way home, resulting in a separation from his wife. When asked about the trouble the reply was: "I am an army officer and a gentleman. I cannot answer any charges made against me by a woman." This shows Col. Tucker to be a cad as well as a scamp, for the "woman" he speaks of so contemptuously is still his wife and the mother of his legitimate children. A strong effort, it is said, will be made to hush the matter, for if it is allowed to proceed it is said that one of the biggest scandals the army has ever known will be aired. Not only will Col. Tucker's actions be thoroughly investigated by the War Department, but it is rumored that persons prominent in army and society life will also come in for a deal of unpleasantness. Every effort, however, will therefore be exerted to keep the facts under cover.

THE FRENCH chamber having sustained the Clemenceau government by a majority of 104 in its repressive policy toward the rebellious provinces of the south, and the army having occupied in force the southern provinces, calmness prevails once more among the wine producers, though socialists freely predict a serious revolutionary outburst later on, but the hope of the socialists of a revolution is father to the thought. The mutiny of the soldiers did not extend beyond the 600 members of the Seventeenth Regiment. Before order was restored the troops had fired into the mob, and the latter had retaliated, with several killed and injured on both sides. The chamber proceeded to pass the bill to do way with wine frauds.

THE reason that the laws against the use of fire crackers in this city are not observed is because they are seldom enforced.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, July 1.

The Coast and Geodetic Survey announces that an earthquake shock was observed today, beginning at 8:14 a. m. and continuing some time, at its observatory at Cheltenham, Md., just outside of Washington. The severest shock occurred from 8:22 to 8.28, the greatest motion being from north to south. The rocking of the earth was more distinct than was observed at the time of the Kingston earthquake but not as severe as the San Francisco. A bulletin issued at noon by the weather bureau, announces that from the details of this morning's earthquake shock, which it says resembled in many respects the Kingston shaker the disturbance is judged to have been from 1,500 to 2,000 miles south of Washington. The third tremor about 8:20 a. m., was of a noticeably long period, and had an amplitude of from fifteen hundredths to twenty hundredths of a milimeter. The east and west motions which began shortly after the first movement at 8:14, alternated with the north to south waves. The maximum motion had an amplitude of of 1.1 milimeter.

The State Department will take no action with reference to the report that British Ambassador Bryce in a recent interview overstepped diplomatic proprieties in commenting on the proposed new constitution of Oklahoma. The theory that the administration might be displeased arose from the fact that the Ambassador was quoted as commending certain features of the constitution, whereas it is popularly understood that the President is opposed to the document in its present form.

If the jury look at the question of Holmes' guilt or innocent in the same light as the presiding justice, it is a foregone conclusion that the former statistician of the Department of Agriculture will be convicted in the cotton leake case in progress. In passing on the prayers asked for by the defense, Justice Stafford said today: "Haas and Peckham must know the truth or falsity of the story Holmes' told. If there was a conspiracy they alone would know, and if Holmes is an innocent man, they are only two men in the world who can substantiate his story." Five prayers out of the nineteen submitted to Justice Stafford were granted today. The jury was summoned into court and the argument in behalf of the prosecution pronounced. It is expected the case will go to the jury tomorrow at 1 o'clock.

The scandal arising from the charges made against Lieut. Col. Wm. F. Tucker, by his wife, will certainly put an end to his ambitions to become paymaster general of the army whatever else the outcome may be. Neither Mrs. Tucker nor her son, Lieut. Logan Tucker, of the Marine Corps, who is acting as her protector, will discuss the charges. Both denied today the authenticity of an alleged interview with Mrs. Tucker, printed in yesterday's papers, in which Mrs. Tucker was quoted as giving some of the details of the "scandalous conduct" of her husband. The war department is reticient, awaiting the report of the investigation made by Majors Galbraith and West, who were commissioned for that work on orders of the Secretary of War. Army officers generally hope that the charges will be proven groundless, in order to save the army from the added scandal of a public trial.

A pardon application filed by H. H. Tucker, jr., of Leavenworth, Kas., secretary of the Uncle Sam Oil Company, has brought before the Department of Justice one of the most sensational cases in its history. Tucker is serving a three months jail sentence for charging that the judge who presided over certain litigation in which he was a party was corrupt, and in a conspiracy with the Standard Oil Company to drive him ont of business. Tucker is said to be worth millions. A fraud order has been issued against his concern, and he has been denied a writ of habeas corpus by the supreme court of the United States. Petitions for Tucker's pardon are being received by the score at the department of justice. It is understood that many of them originated through Tucker sending petitions to the stockholders of his company, asking them to secure signatures.

The financial standing of the Jamestown Exposition Company is to be inquired into by Secretary of the Treasury Cortelyou. The secretary left here today for Jamestown, to deliver an address at the celebration of West Virginia Day, tomorrow. He proposes to spend Wednesday there and it is understood that he will then go over the company's operations in detail. He has taken Assistant Secretary Edwards with him. Edwards is a member of the government commission and is in direct charge of the government's loan of $1,000,000.

Although there has been a decided improvement in the finances of the exposition, through retrenchment, it is feared that the exposition managers may experience trouble in making to the government the semi-monthly remittances of $100,000, which are to begin on the 15th of this month.

Loinsz Castillo, the Liberal Cuban leader, in which he demands to know whether it is correct that the United States proposes to remain in charge of Cuban affairs eighteen months longer, Secretary of War Taft today sent a message to Governor General Magoon for transmission to Castillo, in which he says: The plan for the revolution of the island upon the persons to be selected by a fair election, as outlined in my letter to you, has not been changed in the slightest.

The Two Cent Rate.

At Asheville, N. C., Saturday, Judge Pitchard, in the United States court, enjoined the railroad commissioners of the State of North Carolina from enforcing the reduced rate enactment of the last legislature pending a further hearing of the cases of the Southern Railway and the stockholders of the Atlantic Coast Line, which were referred to a master in chancery. In giving his decision Judge Pritchard said:

"I have not passed upon the constitutional question and cannot do so until the evidence taken by the master shall have been reported to me together with the findings of fact. I deem it my duty to say that in continuing the order restraining the North Carolina Corporation Commission from enforcing the proposed new rate, until the final hearing, I have adopted ample and sufficient means to protect the interest of the public by requiring the railway to file a bond to guarantee the payment into the court of a sum of money equal to the difference between the present rate and the proposed rate in the event that the act shall be declared constitutional."

Volcano Ejecting Hot Water.

Santiago, Chili, July 1.—Valdiva dispatches report that the Ricilahue volcano is ejecting huge columns of boiling water, which, with stones and ashes, have caused the death of 16 Indians and many head of cattle. The volcano stopped the course of the Papahuin river with an immense stone dam. An extensive lake soon formed, the water of which filled the valley up to the crater. Soon after the water began to boil and as it continued to rise its pressure swept the dam away, inundating the neighboring country. Everything living was killed. The new volcano lines close to Mocho, Puyehue and Pillan volcanoes.

JUDGE LOVING ACQUITTED.

As anticipated, ex-Judge William G. Loving, who had been on trial in the Circuit Court of Halifax county since Monday last for the murder of Theodore Estes on April 22 last, was, on Saturday evening, declared innocent of the crime of which he was charged. Prosecuting Attorney Bouldin spoke last in the interest of the commonwealth, and immediately upon the closing of his remarks Judge Barksdale handed the instructions to the jury, with information that the instructions which referred to the unwritten law, and which had been stricken out Friday, were added again, pursuant to an agreement of counsel for the defense and the commonwealth. The jury then left the room.

The verdict was reached after an hour's deliberation. Argument was concluded at 4:46 o'clock, and 60 minutes later the jurymen returned to the courtroom and announced that Judge Loving was not guilty.

The vote for acquittal was unanimous and, after being discharged, a statement was given out by the jurymen that the prisoner was declared innocent on the ground that he had upheld the sanctity of his home. The plea of insanity, so often referred to by the counsel for the defense, was considered slightly, but it was declared that it had no influence on the jury in framing the verdict.

Judge Loving walked out of the court a free man during one of the most remarkable scenes that has ever been witnessed in any courtroom. When the verdict was announced the immense crowd present went wild with enthusiasm, and Loving was almost swept off his feet by the mad rush that was made by the spectators to grasp his hand.

Judge Barksdale, in discharging the jury, made no reference to the verdict, but thanked the jurors for the patience which they had exhibited in attending the proceedings and the interest which they had manifested in all things pertaining to the trial of the accused.

The acquittal of Judge Loving apparently met with general approval. From the moment the verdict came from the lips of the foreman of the jury until Loving left the courtroom he received a continuous ovation. But among the happy people, the happiest were the prisoner and his wife. The frail little woman who has helped her husband bear the burden felt in his arms just as soon as she heard his innocence declared and was entirely overcome by joy over the thought that her husband was free again.

Judge Loving, too, broke down. He wept like a child. With tears streaming down his cheeks he kissed his wife, and, turning to his brother, who sat to his left, embraced him tenderly.

All the counsel for the defense, including Messrs. Walton Moore, and John L. Lee, who made such masterful arguments in defense of the accused, hurried to Judge Loving and warmly grasped his hand.

From his seat the accused then walked to Judge Barksdale and asked the privilege of shaking hands with the jurymen.

The jurymen gave vent to their emotions as the accused grasped their hands and poured out words of appreciation to them for declaring him innocent. Behind him came his wife, who with extended hands, thanked each one of the jurymen. Judge Barksdale was much affected. In the general handshaking the jurist was not forgotten. Endeavoring to remember all who had been connected with the case, Judge Loving mounted the steps and bade the presiding judge an affectionate good-by.

Accompanied by more than 50 of his friends, Judge Loving and his wife returned to the hotel, where they had been stopping since the trial began, and it was in the hotel that by far one of the most touching scenes of the entire day was enacted. It was the meeting of Judge Loving and his daughter. The girl did not attend the session of court Saturday, owing to her nervous condition; but she waited in her room at the hotel for news of the result of the trial, and when her father walked into her room a free man she almost fainted in his arms, and, shaking with emotion, she said:

"Oh, father, then you are free! You are innocent at last!" She embraced Judge Loving and repeatedly kissed him. Judge Loving bore her in his arms to a chair and sat down beside her. He exhibited the same tenderness for his only daughter that his friends say has been second nature with him.

Judge Loving and the other members of his family remained at Houston Saturday night, and returned to their home yesterday.

All the counsel for the defense stated that they expected nothing else but the acquittal of their client.

Prosecution Attorney Bouldin refused to comment on the case further than to say that he had done his duty as he saw it.

The members of the Estes family had no comment to make on the verdict as rendered by the jury. John P. Swanson, however, said that there was no truth in the report that the relatives of Estes were going to institute a civil suit against Judge Loving for the purpose of clearing the name of Estes. No such action, he declared, had ever been contemplated by them. "We had hoped, however," said Mr. Swanson, "that the court would admit the evidence of the commonwealth as offered by Mr. Harmon, which would have vindicated Theodore Estes of assault upon Miss Loving."

The cost of the trial, which began last Monday, amounts to $1,064 46, as given out by the clerk of the court Saturday afternoon. This expense must be borne by Halifax county, although the murder was committed in Nelson county.

The most interesting event following the trial was the announcement made by both sides that no actual assault had been committed upon Miss Elizabeth Loving, which places the young lady right in the eyes of the world.

Mr. John Swanson, a brother-in-law of Theodore Estes and acting for the Estes family, stated that he had absolute and undeniable proof of this fact, and counsel for the Lovings, as well as the Lovings themselves, assert the truth of the statement.

Why was not this fact brought out at the trial? is being asked on all sides.

Counsel for the defense claim that they thought the prosecution would bring the matter out on cross-examination of Miss Loving and that their side could not do so without opening up the collateral questioning of witnesses, while the prosecution states that they did not ask Miss Loving the question because they intended proving the matter by other witnesses, who, however, under the ruling of the court, were not permitted to testify. Between these contentions Miss Loving fell a victim, and it was for this reason that both sides hastened to set her right in the eyes of the world at the first opportunity.

It will be recalled that the young lady was only asked the question as to what she had told her father and her answer was: "He forced himself upon me. I tried to scream out, but he put his hands over my mouth. I remember nothing more."

Had she been asked the question as to whether or not the assault had been actually committed, she would have replied that it had not, and it is known that several witnesses were in attendance at the trial who would have corroborated this answer.

Today's Telegraphic News.

The Strike in New York.

New York, July 1.—Labor leaders called on Mayor McClellan today to demand Street Cleaning Commissioner Craven's dismissal for refusing to settle the "white wings" strike, allowing piles of disease-breeding garbage to accumulate all over the city and endangering the public health.

If the mayor fails to act the leaders will try to have him impeachrd. They are acting under a resolution by the Federal Union.

The American Ice Company found strikers to man its wagons and started all of them out under heavy guards today. Several wagons have already been attacked, the drivers pulled from their seats, the guards overpowered and the vehicles upset by strike sympathizers.

Where police have reached the scene of disturbances in time it was necessary for them to accompany the wagons everywhere they went, and it doubtful if much progress will be made with deliveries.

The "White" strike is, however, the most serious. Though the health department says it has made considerable progress in its task of cleaning streets, only 300 wagon loads of refuse have been removed, a mere drop in the bucket in comparison with the enormous accumulations.

The barge men, stable men and bridge men joined the strike today, as did sixty non-union men brought from outside the city to take out wagons deserted by the organization forces.

In anticipation of attacks on its stable the ice company has heavy guards on foot and mounted police about these places. Thus far there has been no disorders except about the wagons sent out in defiance of the union embargo.

One thousand men, sent out by the health department to clean the streets today were fairly overwhelmed by the crowds of strike sympathizers and forced to return to the stables. Only an army of police saved them from attack.

Rising temperature is adding to the danger of an outbreak of disease.

White Man Lynched.

Chattanooga, Tenn., July 1.—Confessing to the brutal crime of criminally attacking his 7-year-old step-daughter, Dock Posey, white, aged 35, was hanged by a mob to a Western and Atlantic Railroad bridge at Dalton, Ga., early today. The crime to which Posey confessed on his march to death was committed Saturday afternoon while Posey was taking the child to town a few miles away. He escorted her in the woods where he left his vest. After committing the crime he took her to a physician in whose office she died in great agony. The child told her mother all about the crime. Posey was locked up immediately after taking the child to the physician. A mob gathered and going to the jail they overpowered the jailer, took his keys from him and marched Posey to the bridge.

Mysterious Explosions.

New York, July 1.—Mysterious explosions partly wrecked two buildings, one in Manhattan and one in Brooklyn today. In the former case a bag of gunpowder was thrown over the transom of Wing Hung's Chinese laundry at Third avenue and Twenty-fourth street. A fuse was evidently attached, for the powder exploded, damaging the laundry and Rosenthal's restaurant adjoining. The laundry and restaurant are under a 5 story apartment building. A panic followed, though no damage was done to the upper floors of the building. The explosion was evidently carefully planned. The Brooklyn explosion was under a Broadway tenement. It is unexplained. The explosion did little damage, but a fire followed, which was quickly extinguished.

Disorders in France.

Paris, July 1.—Trouble is still in evidence in southern France. It is reported that fully 50,000 peasants are on a strike and refuse to work the farms. As a result crops are going to waste and unless the trouble is speedily settled it is feared the harvest will be completely ruined. The peasants are crowding into the villages starting riots at different points. Bloodshed has resulted in some instances. Gen. Ricci, commanding the soldiers in the region, has reported that the situation is serious. Public meetings have been forbidden by Prefect Zerrara lest they should lead to trouble.

The Haywood Trial.

Boise, Idaho, July 1.—Wm. D. Haywood, of the Western Federation of Miners, accused of the murder of former Gov. Frank Steunenburg, of Idaho, will probably take the witness stand in his own behalf before court adjourns tonight. As an officer and leader in the miners' federation he will testify, though a fighting organization, the union never planned murder or other acts of violence. He will deny that he knows more of Steunenberg's assassination than he learned through the newspapers.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Caring for the Babies.

New York, July 1.—While process servers are seeking John D. Rockefeller to force him to appear in the United States court, nurses paid by him have searching the east side tenement districts, seeking sick babies. It was announced today by the New York Association for improving the condition of the poor, that the Oil King had authorized the employment of twenty trained nurses to go from house to house, teaching tenement mothers how to care for their babies and keep them well. The unique work began today with headquarters at Sixty Fourth street and East river where an open air hospital has been established for infants. The watchword of the nurses is "clean air, clean milk and clean babies."

Attempt to Cheat Gallows.

Jackson, Miss., July 1.—J. M. Jenkins condemned murderer of Herbert Clifton, under sentence to be hanged at Tunica, attempted suicide in the jail today just before the sheriff entered his cell to take him to the scaffold. Jenkins slashed his throat with a razor severing his windpipe.

When Sheriff Offense bent over the negro the latter spat in his face. Physicians say his wound will not prove fatal and Sheriff Offense declares he will hang the man Wednesday regardless of his condition.

Micenheimer, who shot and killed Mrs. Charles Walker, his landlady, in south Lynchburg Saturday night, and probably fatally shot Mrs. Martha Drewry, Mrs. Walker's mother, and escaped after shooting himself in the forehead, was captured yesterday at an old brickyard at the foot of Candler's mountain, about three miles from the scene of the shooting. Micenheimer, was roughly handled when caught by a posse. The evidence before the coroner indicated that Walker had reason to be jealous of Micenheimer's attention to his wife.

Martyr to Cancer Inquiry.

Extraordinary circumstances attended the death from cancer last week of Prof. Maximilian Schuller, of the University of Berlin, as as a direct result of his heroic efforts to discover the cancer germ. His experiment in breeding cancer cultures demanded that they be kept continuously at blood heat. This requirement proved fatal to the scientist, who ventured on the perilous method of adjusting the tubes in a sort of a cartridge belt around his waist in contact with his skin. The deadly culture passed into the professor's blood in consequence of one of the tubes breaking and lacerating the skin. Professor Schuller, who was a man in the prime of health, died three months after from acute cancer of the stomach.

WHY MR. RYAN WITHDREW.

Mr. J. F. Ryan, of Loudoun, has given out a statement setting forth the reason of his withdrawal from the recent congressional race. He says:

"It has come to my knowledge that my withdrawal from the recent contest for Congress has been misunderstood and misrepresented. I therefore desire to make the following statement:

"Several times during the canvass, realizing the uncertainty of the contest, suggestions were made by different candidates that we cast lots as to who should retire from the contest. This suggestion was first made by Judge Nicol, but whether seriously or not, I cannot say. I then, as Mr. Carlin afterward reminded me, declined to consider the proposition. Later the proposition was made to Judge Nicol, which he declined, and still later the proposition was made by Mr. Carlin, who asked me to see Mr. Gordon in reference to the matter.

"Mr. Gordon disapproved the proposition, realizing that Mr. Gordon and myself so divided the vote in a portion of the district as to render probable the defeat of both of us. I suggested to Mr. Gordon that we cast lots as to which should retire. Mr. Gordon saw the situation as I did, but deemed it improper to adopt the suggestion. This occurred on the evening of the 17th. Mr. Gordon then left for Orange with the positive understanding that we would both continue the race to the end.

"On the afternoon of the same day I met a friend from Loudoun, and told him I was informed that my vote was leaving me on account of the insistent circulation of the rumor that I had withdrawn; that unless I could counteract the effect of this rumor I might have to retire from the race, but did not expect to do so. At 11:30 p. m. of the same day, in answer to additional rumors, I published a statement that I had not and would not withdraw from the contest.

"Shortly after giving this statement to the press I received a message from Leesburg saying that the friend above mentioned, on his arrival there, had reported I had withdrawn. I took first train to Leesburg to learn if this report was true.

"On arriving at Leesburg I learned that the report was true, and realizing that as this report had been sent all over the district, it would be impossible to counteract its injurious effect in time for the election on the following day. I then determined to withdraw from the contest, leaving my friends free to vote for whom they pleased, and wired Messrs. Nicol, Gordon and Carlin of my withdrawal. No blame should be attached to my friend for giving out what was not intended for the public, as the fault was mine in not fully impressing upon him the importance of secrecy."

John D. Rockefeller is said to be at Pittsfield, Mass., with a searchlight and a big dog guarding him from subpoena servers.

THE ELECTRIC RAILWAY.

With the exception of a short piece of track over the bridge that crosses the tidal basin outlet at the foot of 14th street, Washington, the Washington, Alexandria and Mount Vernon railroad is double tracked between Spring Park, at the west end of this city, and the station at 12th street and Pennsylvania avenue, Washington. The greater part of the line was double tracked about two years ago, but where the railroad crossed above the Columbia pike, in Alexandria county, there was a single-track bridge. Within the past month another steel bridge has been thrown across the county road and the double tracks were connected, making them continuous between Alexandria and Washington. Work is in progress for double tracks across the new concrete bridge over the tidal basin, and it is expected that they will be in use within the next six weeks. It is also proposed to extend the double track across Hooff's run, on the confines of this city, and then down Cameron street to connect with the present line on that street, thus giving practically a solid double track from the Columbus street station to the station in Washington.

The Secretary of War on Saturday notified the electric railway company that they would be allowed until December 1, 1907, to change the system from overhead trolley, now in use on the Highway bridge across the Potomac to the underground system, and that the company will be required to give bond in the sum of $70,000 to insure the completion of the work by that time.

FUNERAL OF MR. AITCHESON.

The funeral of George P. Aitcheson, who died last Friday morning, took place yesterday afternoon from the residence, 411 Duke street. The interment was in St. Paul's Cemetery. Andrew Jackson Lodge of Masons and Mount Vernon Chapter, Royal Arch Masons, attended in a body. The casket was followed by an escort of eight members from the Old Dominion Commandery, Knights Templar. The floral tributes were profuse. Among them were designs sent by the Masonic Relief, of Washington; the Navy Yard Band, and the employes of the navy yard, and the bachelor friends of the deceased. The services were conducted by Rev. P. P. Phillips, of St. Paul's Church, assisted by Rev. Joseph Sevier, of the Second Presbyterian Church. The pallbearers were William P. Taylor, Charles H. Callahan, Mr. McKnew, of Washington; David Aitcheson, Wallace Lindsey, and R. P. A. Johnson. The escort from Old Dominion Commandery included Peter Astryke, John H. Trimyer, Robert F. Downham, Henry K. Field, William L. Allen, James E. King, A. A. Paul, and Peter T. Harrington. At the grave the rites of the Masonic order were performed. The funeral was also attended by the members of the Friendship Veteran Fire Association and the Bachelor Club, of which organizations Mr. Aitcheson was a member. Apart from the members of these organizations many other friends and acquaintances of the deceased joined in the cortege.

MR. LUCKETT SHOOTS HIMSELF

Mr. Raleigh F. Luckett, about 27 years of age, a brother of Joseph E. Luckett, of the Columbia Theater, shot himself about 11 o'clock this morning, at the Garrick Club, at the corner of Pennsylvania avenue and 14th street, Washington. Whether or not the act was intentional is not known. He was taken to the Emergency Hospital.

Mr. Luckett a few years ago married Miss Gertrude Harlow, of this city, where he is well known. They have one child—a little son. Recently Mr. and Mrs. Luckett separated and it is intimated that this may be the cause of the shooting.

After the shooting Mr. Luckett was removed to the Emergency Hospital, where an operation was performed and where he now lies in a critical condition.

Mr. Luckett went into the club seeming in excellent humor, and asked for a small drink of whisky. He then passed through the rooms until he reached the reading room overlooking the avenue.

A moment later a pistol shot was heard and he was found seated by the reading table, with the pistol beside him. He had sent a bullet through his right breast. He gasped, 'It's all over, send for Joe,' repeating this several times.

Mr. Luckett was cashier at the Adams Express Office in Washington.

DUDLEY'S JOLLY ETHIOPIANS.

All lovers of good singing, good music, good dancing and good, clean, wholesome fun will undoubtedly avail themselves of the opportunity to see S. H. Dudley's Jolly Ethiopians at the old fair grounds all this week. The Jolly Ethiopians, for the most part, are members of the great "Smart Set Company" on a summer tour, of which Mr. Dudley is the star. They represent the most extraordinary aggregation of performers ever assembled for a summer show.

All the necessary accessories for a metropolitan production are carried by the Jolly Ethiopians. The company carries its own band and orchestra, led by Wm. A. Bayard, a capable and brilliant musician. Their mammoth tent is entirely waterproof and performances will be held rain or shine. The company arrived in this city this morning and gave a parade. They also gave a concert at the intersection of King and Royal streets at 12:30 o'clock.

STRIKE OF BRICKLAYERS.

The Bricklayers' Union of Washington, which is admitted by both sides to hold the key to the present labor troubles in that city, will remain firm in the stand taken at last Thursday night's meeting, when it voted to call a strike on all buildings where union men had been locked out and replaced by non-union workers. The bricklayers will give their support to the affiliated trades and continue as a part of the Building Trades Mechanics' Council. Both sides to the present controversy, which has developed into a general open-shop issue have fought hard for the support of the bricklayers, the trades trying to get them in as an active factor and the Employers' Association trying to keep them out and inactive.

Woman Changed Her Mind.

Harry Williams and Miss Marie Terreau, a winsome brunette, were standing before a clergyman in Shreveport, La., for the purpose of being married Saturday, when it was found that Williams had made a mistake in the spelling of Miss Teureau's name in the marriage license. Williams took the certificate to the clerk of the court for correction. Miss Teureau was chagrined at the interuption of the wedding, and believing it to be an omen of ill-luck, exercised a woman's privilege and changed her mind. When Williams returned she told him she had decided not to become his wife, but the wife of James Strothers, who had been his rival. Strothers made no mistake in his license, and is a happy bridegroom.

Salesman Murdered.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

Would Photograph Soul.

Henry Price, a retired professor of music, of Mount Vernon, N. Y. believes he has discovered a process of photographing the soul, and he is trying to obtain permission from the authorities at Bellevue Hospital to make experiments there. His plan is to photograph the soul as it departs from the body with a number of quick kodaks. It would be impossible, he says, to hypnotize the kodak, as it records many things not visible to the naked eye. Price is opposed to trying his experiments on convicts executed at Sing Sing prison, because he says that in his opinion the strong electric current would kill the soul. As yet the authorities have not taken up the experiment.
